

# MHA SUMMER CAMP at Lake Doniphan

August 3 - 7, 2015

Lake Doniphan Conference & Retreat Center  
12856 Doniphan Lake Road • Excelsior Springs, MO 64024

## Our Mission

The mission of the Midwest Hemophilia Summer Camp is to provide campers with a safe camping experience and the opportunity to meet other young people with rare bleeding disorders.

In collaboration with the Kansas City Regional Hemophilia Treatment Center, campers will receive onsite medical care and education related to hemophilia and other bleeding disorders.

Campers will have the opportunity to meet new friends or renew old friendships, and participate in a variety of traditional camp activities including fishing, biking, swimming, and crafts.

## Camp Medical Staff

Summer Camp medical support is provided by Kansas City Regional Hemophilia Treatment Center at Children's Mercy Hospital. The hospital will provide on-site medical and nursing personnel to perform first aid, factor infusions and medication administration as needed. Personnel will include physicians, fellows, medical residents, advanced practice nurses, registered nurses and pharmacists.

## Counselors

Summer camp counselors must have two references and pass a thorough background check. They must be 21 or older and physically able to accept the responsibility of caring for the campers.

## Emergency Services

Your child's safety is priority one. Local ambulance and emergency service providers are made aware of the location of the campground and the dates for the camp. Helicopter transport has also been secured for immediate transfer to Children's Mercy Hospital.

## What the Campers say...

"Fishing, camp songs, being with friends, camp theme & the cabin decorations were cool."

"My favorite was everything, I made new friends, and I can't wait to come back next year!"

"All the counselors and leaders were great."

## What the parents say...

"He cannot wait to go again this year!"

"As much as I missed my boy, he gained an independence and a new confidence in himself."
