

### **Honey Blankenship, MBA, MSN, RN**

*Patient Resource Navigator*

Honey is a Patient Resource Navigator with CSL Behring and will be working with patients who are interested in gene therapy. She has over 12 years of experience in bleeding disorders. Her passion and advocacy keep her connected to the community.

Working as a Nurse Care Manager at the Cincinnati Children's Hospital Hemophilia Treatment Center, she helped support patients with bleeding disorders. While in industry, she has served as a Senior Clinical Specialist educating patients, families, and healthcare providers.

### **PRN Presentation**

*Learn about the advances in gene therapy research for Hemophilia B in a 30 minutes session which dives into gene therapy for hemophilia B, how it works, and the goals of gene therapy.*
